RootVoid

Robust multipurpose detention module.

Selected 100% recycled PP.

Minimizing flooding, store water, dewatering roots and secure rootguiding in same unit.

Can be trafficked by SLW 60. (Min cover 80 cm).

Unique design of upper layer allows water flow horizontally and dewater the whole module.

Bottom module to be filled with specially selected soil.

Available in 2 off sizes.

RootVoid (Small)

Size of module:

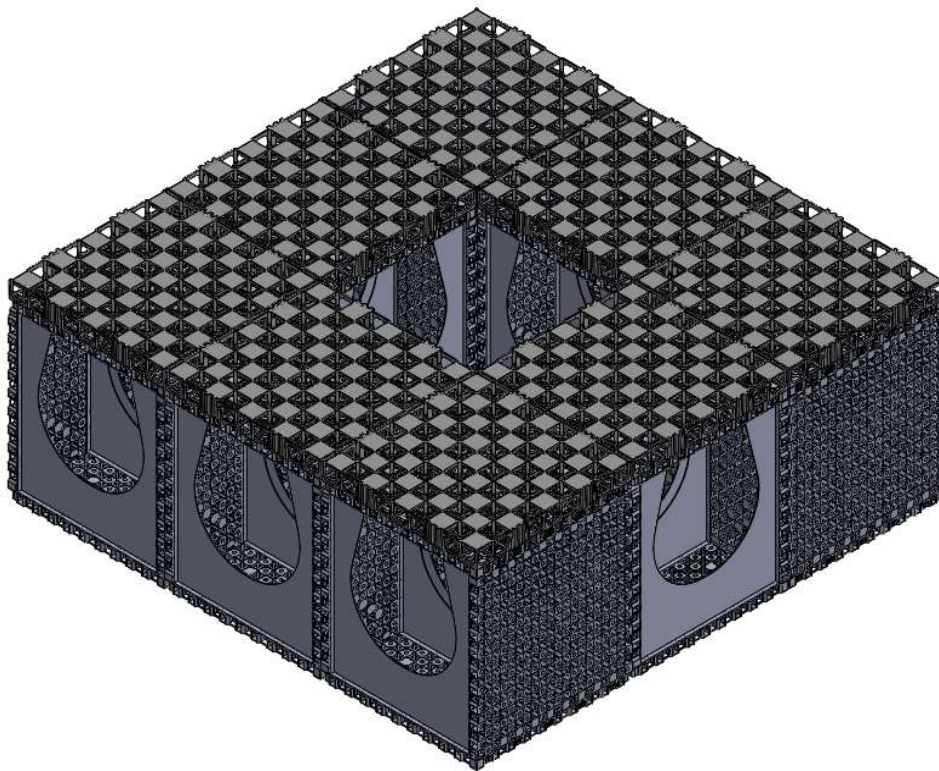

L=1.5 m

W=1.5 m

H= 0.6 m

V=1.2 m³

Footprint= 2.25 m²

RootVoid (XL)

Size of module:

L=3 m

W=3 m

H= 0.55 m

V=4.4 m³

Footprint= 9 m²
